Untiling work has been done by the committee and much time has been devoted to perfecting the plan which it will lay before the meeting this evening. Several members of the committee stated yesterday that their work was about completed and that a few remaining details would be disposed of at a meeting this afternoon.

The nonpartisan movement set on foot at the meeting on December II has caused the greatest interest in the city. Business men and citizens in general look forward to the report of the Committee on Public Welfare and the belief prevalls that material benefit, in the shape of public improvements in St. Louis, will result from the proposed organization.

It is alleged that these charges have been sustained in proceedings before United States Commissioner Hancock in San Francisco, Cal.

Mr. firick said to-day that these charges had not been based on indefinite rumors, but upon the statements of reputable persons, including a brother of Representative Calierhead of Kaneas and Barney Reubens of Michigan City. Mr. Reubens had and the only way a man could hold a claim in the Only way a man could hold a claim in the Cape Nome district was to fight for it, and as the ring could shoot better than he could be fad left.

According to the charges, the ring aims to gain control of every paying claim in that region. It is charged that when a rich claim has been discovered, and it cannot be secured in any other way, a counter claim will be set up by a lumper and the contest will be carried into court, where Judge Noyes will appoint Alexander McKenzie receiver and will then delay the decision until McKenzie, as receiver, has worked the claim out, or until the rightful owner has abandoned his claim. It is charged that yudge Noyes requires McKenzie to give bonds that are inadequate when compared with the interests involved, and that as receiver McKenzie takes charge of personal property, including gold already taken from the claim.

Charges Against Judge Noyes.

Among other charges against Judge Noyes, it is alleged that he has missed attention.

Charges Against Judge Noyes.

Among other charges against Judge Noyes, it is alleged that he has missed attorneys for the actual mine owners, so that they could not be present at the hearings in his court, and that in their absence the Judge has made orders without notice, restricting the owner from working and appointing McKenzle receiver.

Mr. Brick said it was charged that Judge Noyes's private secretary, named Wheeler, was an attorney for the companies in which McKenzle was interested.

Mr. McKenzle was interested.

Mr. McKenzle is said to have been very active in securing political influence to bring about the appointment of Judge Noyes, and the relations between them are said to have been very close. Senator Carter of Montana, having been connected in some way with the charges against Judge Noyes, on Monday introduced a resolution providing for an investigation, so that it is quite probable one house or the other will probe the charges.

TURKS SLAYING CHRISTIANS.

Three Hundred Killed and Eighteen Villages Destroyed.

Vienna, Dec. 18.—Massacres of Christiana by Turkish soldiers in the domain of the Suitan have been resumed. In Macedonia the scenes which horrified the civilized world during the Armenian trouble of a few years ago are, it is stated on the authority of Austrian representatives, being re-enacted.

The Austrian Consul at Salonica, Macedonia, sends the first definite information of the massacres. He states that Christians in the districts of Ipek, Gestivar and Giljan are terrorized; that massacres are of daily occurrence, and that there is no security for life and property.

Eighteen villages, the Consul reports, have been completely destroyed by fanatic Mussulmans. The native Christian priests were tortured and many converts killed. The Consul estimates that more than 300 Christians thus far have been slain. Appeals to the Turkish authorities to check these new horrors have met with no response.

Acting on the report of its Consul at Acting on the report of its Consul at Salenica, the Austrian Government will, it is said, make strong representations to the

For the last fifty-three years he has made the West his home, and is generally known throughout Kansas. His remarks on the sentiment which prevails throughout his State in favor of the Fair show a most encouraging state of affairs, and it is his belief that there will be a liberal response from Kansas when support is needed.

"We are part of the Louisiana Purchase," said Mr. McDonald yesterday, "and there is the greatest interest feit in the World's Fair. We are strongly in favor of the project, and there was never any doubt that St. Louis is the rational place to hold the Fair. Salenica, the Austrian Government will, it is said, make strong representations to the Porte.

Trouble has been brewing in Macedonia for several years, but the massacres reported by the Austrian Consul are the first to occur. that St. Louis is the rational place to nold the Fair.

The Fair will be of enormous benefit not only to the city, but also to the entire West, and is going to be a great factor in the cevelopment of this part of the country. The capabilities of the West will be impressed upon the world through this Fair, and in this way alone it will be of great service.

St. Louis has long needed some such opportunity as this—an opportunity for its citizens to have one interest and object in common, in the promotion of which they could display their civic pride. The mency is here and the spirit is here. The Fair will furnish a chance to show both.

"There can be no question as to the success of the Exposition. The territory interested in the Fair and the spirit in which the Fair is regarded assure an Exposition the like of which has not been seen before.

Project Would Require a Fourteen Foot Channel and Cost at Least Thirty Million Dollars.

Washington, Dec. 19. The War Depart ment to-day sent to Congress a supplemental report on the project of a waterway through the Lower Illinois and Des Pinines jurisdiction of the Cape Nome region, is River and Sanitary Canal, from Chicago to the Misabsippi, with channel depths of ten,

After considering all available information, the board concludes:

1. That the existing project for the improvement of the Lower bilinois if exproject, along the Upper Illinois and Des Plaines rivers, on which the board has sub-mitted estimates, is ample for all the ex-lating navigation in the Mississippi Valley or any improvement thereof authorized by

2. That any extension of lake naviga-tion inland along the Des Pladnes and Hit-tels rivers will require a navigable water-day of not less than fourtien feet. 3. The cost of such a channel is not like-

ly to fall short of \$50,000,000.

4. That a waterway for lake yessels exment by itself is not advisable. The board, therefore, recommense that no further curveys be made of the Des Finless and Illinois rivers unless is connection with a project to be authorized by Congress which shall include provision for a corresponding depth of water in the Mississipal River below the mouth of the Illinois.

REPUBLIC SPECIAL.

Waso, Tex., Dec. 19.—A shocking tragedy was enacted eight miles from this city yesterday, resulting in the death of Mose Miler, a well-to-do negro farmer, and his wife. These two old people had, by industry and frugality, accumulated considerable property and a handsome sum of money, which they kept in the house.

Testerday soon after breakfast both became very ill and soon died in convulsions. To-day officers arrested Jim Lee, a negro biacksmith, and Henry Strange, a negro boy, if years old, charged with the murder of the old people. The boy confessed that he put rough on rats in the food at breakfast, and says Jim Lee told him to do it.

The money usually kept in the house was gone, and the theory of the officers is that the old couple were murdered for their money.
